**Insoluble Fibres
2021-2026**

**Post-Covid-19 Update
*Executive Report***

Multiclient Proposal

Objectives

- Post-Covid-19 update to Soluble Fibres 2019–2024
- Clearly describe the functionalities, properties, and benefits of all the different fibres
- Identify and profile the insoluble fibre producers and their production (kt)
- Establish import, export, and availability by region and insoluble fibre
- Quantify the current market demand (2021; kt) and forecast market (2026; kt) by insoluble fibre type and end-use application
- Understand the “why” and “why not” for the use of the different insoluble fibres, and to identify potential novel fibre ingredient alternatives based on in-depth user interviews
